Dear Committee members,

Election integrity is vital to every community & county across our great state regardless of party preference. We must maintain our voter ID laws and have other means to maintain the truth in all elections. If we must show an ID to purchase beer, wine, alcohol, tobacco, BOARD AN AIRPLANE, cash a check or any other multiple times, we must prove who we are when voting. I would hate to learn that my mother had voted - she has been dead since 1997. I would hate to learn that my neighbor had voted even though he is not a registered voter. Please review with your heart the logical and legal methods to ensure our elections are true and fair. Thank you for your service to our great state of Texas!

Lubbock, TX

State Committee,

I am very concerned about our precious freedom and right to vote for elected officials. I realize it is a difficult task to investigate and secure the vote. However, please be more responsible and courageous than our U.S. Supreme Court. May God inspire our Texas State Government to remove every opportunity for fraud from our election. May He also inspire godly, honest men to run for public office. And may every legitimate vote be counted in our future.

Karen.

I SUPPORT HR237.

I support this resolution, but suggest that it also include requirement that no voting data is ever transmitted outside of the USA and all transmission shall use strong encryption and verification of both sender and receiver. Transmission of data is very important. A man-in-the-middle attack is when an entity is placed between two ends of a connection and can either listen in, or alter, data that passes through it - transparent to the sender and receiver. High levels of encryption combined with message signing can help alleviate this issue, but either way it should always remain within the USA.

All Texans should support free and fair elections

---

DONNA EYLES

Self

CORPUS CHRISTI, TX

It should be patently obvious that US election data should be stored in the US only - but evidently it is not. So I would agree that we need to enact this bill/law to state the obvious.

Please vote YES on HR 237

Excellent Resolution that all paper and electronic ballots as well as all records relating to voting machines should be processed and stored within the United States. This not only helps to ensure the integrity of this information but also voters' confidence in the election process. Please vote for this Resolution.

This is an important bill to maintain control as well as maintaining privacy. No foreign entity should have access to election data. Please vote for HB 237

---

Julie Garcia

self

Corpus Christi, TX

This is a unity bill that enforces fair election process for all Americans. We should have concerns about election interference for foreign entities. Please vote "yes" on HR 237.

---

brad hodes

---

FOR HR237.

---

Jesse Suarez

Rabalais I&E Constructors

Corpus Christi, TX

Yes, yes ,yes to this! All processing of election activity should remain in United States of America. The only possible reason someone associated with our elections would be okay with processing election results to foreign countries is to encourage election fraud. Please vote yes on HR237.

Our organization of over 10k members and 2k Hispanic Evangelicals support this bill.

---

Kathy Turner

self, retired

McGregor, TX

I support HR 237 as we need to maintain control and custody of our election records within our country.

---

Cathy Jaster

Georgetown, TX

The amount of election fraud committed in this past election year, both by domestic and foreign entities has been appalling. These criminal activities need to be prosecuted to the full extent of the law. And we need to help secure our elections in Texas by ensuring all the equipment, materials, data, ballots and records are built, stored, secured, counted and processed in the U.S. and only by U.S. citizens, with criminal charges for violations.

I am providing public comment in support of H237. I strongly support restricting the collection and storage of all local, state and federal election records to only being kept in the United States and not any foreign entity ever. Please pass this resolution out of committee.
